If you do not have internet access, you will automatically be given other options to activate.. To access the Windows Disk Management console, please do the following Mediafour Technical Support is not able to troubleshoot hardware, driver, or connectivity problems, but some issues can be resolved by choosing a different port on your computer, using a different cable, checking for loose connections, connecting directly rather than through an intermediate device (such as a USB hub), or, if your drive allows it, trying a different connection type.. Both of these drive types require additional software to be used, and for that reason, require the Mac OS.
